## SUMMARY

A motivated and dedicated Python developer with hands-on experience in Python, Flask, and SQL. Eager to contribute my skills in Python, REST API development, and full-stack development to a dynamic development team. Seeking an opportunity to grow as a Python developer.

## SKILLS

- Python/FastApi
- Google cloud
- SQL
- Numpy,Pandas
- Flask
- HTML,CSS,JavaScript
- ORM
- Git and GitHub
- Debugging

## WORK EXPERIENCE

### Product Support Engineer, Flazetech IT Solution

Feb 2025 - May 2025

- Supported clients by diagnosing and fixing product-related challenges.
- Delivered user assistance and reported technical issues to the development team.
- Performed testing activities and suggested enhancements for better performance.
- Documented customer queries and resolutions to improve service quality.

### Web Developer Internship, Mahamaya Agro

Jul 2024 - Oct 2024

- Assisted in developing and maintaining responsive websites for Mahamaya Agro.
- Worked on both front-end and back-end tasks to improve functionality.
- Supported the team in creating digital tools for agriculture solutions.
- Helped optimize website performance and user experience.

## PROJECTS

### Food delivery web application :

- Built a full-stack food delivery app using Flask, SQLAlchemy, and SQLite.
- Implemented user authentication, cart management, and order tracking.
- Designed a responsive UI with HTML5, CSS3, Bootstrap, and JavaScript.
- Added admin panel and data visualization with Chart.js for order insights.

### Library management system :

- Developed a CLI-based library management system using Python and SQLite.
- Implemented features to add, update, delete books, and manage member records.
- Enabled book issue/return functionality with transaction tracking using SQLAlchemy.
- Enhanced user experience with Pyfiglet and Colorama for a readable terminal UI.

### Vehicle Fleet Management & Analytics System :

- Built web-based Fleet Management System with Flask for vehicles, drivers, trips, and maintenance.
- Developed analytics dashboard for fuel, trips, maintenance costs, and vehicle utilization.
- Implemented JWT authentication with role-based access for secure operations.
- Used Flask, SQLAlchemy, SQLite/PostgreSQL, Bootstrap, and Chart.js for backend and frontend.

## EDUCATION

### BTech (CSE- Data Science)

2022 - 2026

Lakshmi Narain College of Technology Excellence, Bhopal, M.P.

### Class 10 & Class 12 (CBSE)

2020 - 2022

Green Valley Public School, Balaghat, M.P.

## ADDITIONAL INFORMATION

### Certifications:

- Python by HackerRank
- Backend Development Course by Physics Wallah
- Data analyst and visualization by Accenture

### Soft Skills:

- Problem-Solving
- Adaptability
- Teamwork and Communication
